## A saving of \$50k for a EUR/USD importing client

A client of ours in the shipping industry took advantage of our free FX health audit. It was here that we discovered they were spending over \$10k unnecessarily in currency conversions.

We set them up with a £2m Credit Line with a 0% deposit to implement an effective hedging strategy consisting of Forward Contracts.

We've managed to save this client \$50k year-on-year so far as well as given them an account where they can hold multiple currencies other than USD.

Forward Contracts may or may not require a deposit dependent upon your facility agreement.
