

Moving toward digital Carnets; Changes to SGS as of 2nd January:

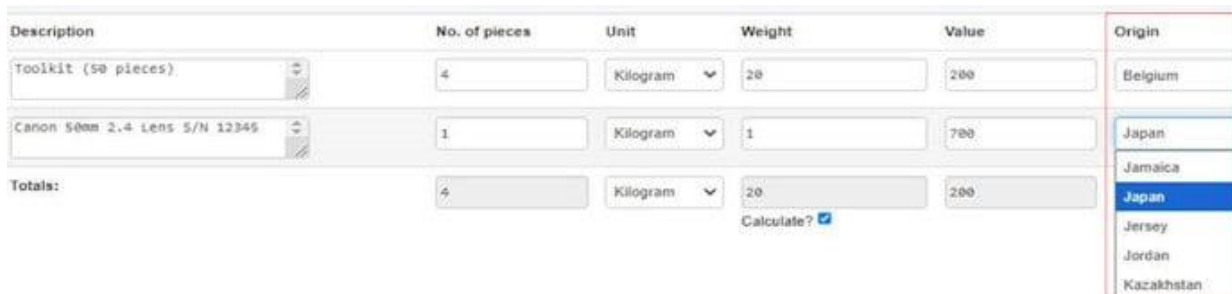

1. Where a weight is shown, the 'Unit' field on the general list will be mandatory (as usual, a minimum of a total weight is required, if not listing individual item weights).

The screenshot shows the eCERT 'Document Setup' interface. On the left, a sidebar lists setup steps: 'Setup' (100% Complete), 'ATA Carnet' (Preview), and 'Aviva Guarantee'. The main area is titled 'General List' and contains a table for item details. The 'Unit' column is highlighted with a red box, and a dropdown menu is open, showing 'Gram', 'Kilogram', 'Metric ton', and 'Litre'. The 'Kilogram' option is selected. The table has columns for 'Item Hd', 'No.', 'Description', 'No. of pieces', 'Unit', and 'Weight'. The 'Totals' row shows 5 pieces, 22 weight units, and a 'Calculate?' button.

Item Hd	No.	Description	No. of pieces	Unit	Weight
☐	1-4	Toolkit (50 pieces)	4	Kilogram	20
☐	5	Canon 50mm 2.4 lens S/N 12345	1	Kilogram	
☐					
Totals:			5	Kilogram	22

2. Origins will be selected via a drop-down menu. **Please note:** If you are entering the 2-letter ISO code directly onto a general list CSV file, please use 'GB' for United Kingdom. 'UK' will not be accepted as an origin.

The screenshot shows the eCERT 'General List' interface. The 'Origin' column is highlighted with a red box, and a dropdown menu is open, showing a list of countries: Belgium, Japan, Jamaica, Jersey, Jordan, and Kazakhstan. The table has columns for 'Description', 'No. of pieces', 'Unit', 'Weight', 'Value', and 'Origin'. The 'Totals' row shows 4 pieces, 20 weight units, 200 value, and a 'Calculate?' button.

Description	No. of pieces	Unit	Weight	Value	Origin
Toolkit (50 pieces)	4	Kilogram	20	200	Belgium
Canon 50mm 2.4 lens S/N 12345	1	Kilogram	1	700	Japan
Totals:	4	Kilogram	20	200	

3. Both headings and free text data will not be transmitted as part of the Digital Carnet data and as such you will see a note advising of this in each field. Although this will not interfere with both headings and free text data being included on paper Carnets, **we are encouraging exporters to begin moving away from using these fields**. Once Digital Carnets go live, these two fields will not be useable.

The screenshot shows a web form titled "General List". It contains several input fields and buttons. At the top, there are fields for "1" and "2" with dropdown arrows, and a "Jal" dropdown. Below these are more fields, including a "Totals:" section with values "5", "22", and "900". A "Calculate?" checkbox is checked. A red box highlights the text "Heading (Hd) lines will not be transmitted as part of the eCarnet data". Below this is a checkbox labeled "Use small font". Further down, there is a "Free Text:" label and a text input field. A red box highlights the text "This data will not be transmitted as part of the eCarnet data" below the text input field.

General List
